## RELATED EXPERIENCE

### R CREATIVE SERVICES

July 2020 – Present

*JavaScript Developer*

- Engineered all unique JavaScript applications and deployed as stand-alone PWAs or integrated into CMS platforms.
- Enlivened front-end platforms with tailor-made designs to account for each customer's personal needs, tastes, and styles.
- Reinvigorated website themes and content to magnify discoverability, impressions, and revenue.
- Consulted with cross-functional teams — writing, marketing, SEO — to generate comprehensive solutions for a variety of clientele.
- Forward-facing with clients, routinely communicating deadlines and consulting with them about vision, expectations, progress.

### FULL STACK DEVELOPER

July 2020 – Present

*Freelance, Self-Employed*

- Blueprinted and constructed customized Discord Bots in Node.js to satisfy a wide spectrum of client needs, primarily in niche communities such as gaming servers, novelty traders, and religious organizations.
- Authored *Pokemon Go! Raid Organizer Bot*, which services several servers with hundreds of users.

## ADDITIONAL EXPERIENCE

### MERLIN ENTERTAINMENTS / MERCHANTS PREFERRED / VALET LIVING

March 2012 – January 2020

*Operations / District Manager*

- Led teams of 30-100 people to deliver exceptional customer experience measured by TripAdvisor scores and top-of-the-line employee engagement scores measured by bi-annual surveys.

## EDUCATION & CERTIFICATION

### THINKFUL

Feb 2020 - Aug 2020

*Software Engineering Immersion*

- Completed intensive full-stack web development program with a focus on React, JavaScript, NodeJS, and PostgreSQL.
- Mentored by industry leaders and senior full-stack developers to learn and develop best practices and standards.
- Daily paired programming with fellow cohort engineers.

### GEORGIA STATE UNIVERSITY

*B.A. Political Science, International Affairs*

May 2014
